

SMU ADMISSIONS TEST FACT SHEET

The SMU Admissions Test is a tool using verbal, numerical and abstract information to assess and measure your critical reasoning ability. This is done via three (3) test components, each test will take about 30 minutes to complete:

- (1) **INDUCTIVE Reasoning:** In this component, you will be given a series of diagrams and asked to choose the next logical sequence diagram that should follow.
- (2) **VERBAL Reasoning:** In this component, you will be presented with passages of information, and asked to evaluate several statements which follow each passage by indicating whether they are 'true', 'false' or you 'cannot say' based on the information in the passage.
- (3) **NUMERICAL Reasoning:** In this component, you will be presented with tables, charts of data and situational problem sums. With these information, you will be asked to analyse, calculate and conclude the final outcome and choose the option that best represents the answers. A calculator and rough paper will be beneficial when completing this component.

The test is conducted online, and in the Multiple Choice Questions (MCQ) Format.

OTHER INFORMATION

- A. Applicants who have not attempted the GMAT / GRE Tests may opt to complete the SMU Admissions Test.
- B. The test will cost SGD\$200, and payment can be made via Credit Card using a Mail Order Form, cheque/bank draft, or bank transfer. Details of the payment will be made known to you upon completing your application.
- C. As we practise rolling admissions, applicants are strongly encouraged to complete the test as soon as possible to ensure that your results are received promptly.
- D. There are full instructions and practise sessions available before you start each test. You will only have ONE opportunity to complete them. These tests will not be affected by either the speed of your computer or the speed of your internet connection.
- E. Time Consideration: Please ensure you set aside at least **1.5 hours** for the whole session (real test time plus practice time). You may "pause" between each test group, but must complete all components first before the overall score can be released.
